UPCOMING

ARTIST RECEPTION: WHEN BLACK FLOWERS BLOOM WEDNESDAY, MARCH 2ND | 5:30PM

Join us on Wednesday, March 2nd for a visit and talk by Designer Leeya Rose Jackson at the Memorial Union Gallery. Leeya is a graphic designer, painter, illustrator, and printmaker. She has worked for Wieden+Kennedy NY, designed for brands like Arby's, Big Ten Basketball, and H&R Block, and now has her own design shop, Noisemakers, which prioritizes BIPOC/LGBTQIA+ owned businesses and organizations. Her current exhibition, When Black Flowers Bloom, explores and celebrates the resiliency of Black American Femme Women.

With these works of art, Leeya dives into the meaning of Blackness, both literally and figuratively in race and culture, but also in color and texture. Against the bright, vibrant, traditionally Western feminine colors, Leeya contrasts her portrait subjects to confront viewers with subjects that embody resilience and vulnerability. With works inspired by the universe and mythology, she explores the layers of a black woman, the softness and vibrancy that often gets hidden under the Strong Black Woman trope.

Come at 5:30 pm to the MU Gallery and listen as Leeya talks about and leads us through her design and mixed media work.

SPEED DATING A MENTOR: MEET YOUR MATCH WEDNESDAY, MARCH 2ND | 7:00PM

Entrepreneurship Club would like to invite you to the Speed Dating a Mentor: Meet Your Match event on Wednesday, March 2nd at 7:00PM in the Meadow Lark Room of the Memorial Union. We are teaming up with our friends at Emerging Prairie to have some BIG-NAME mentors in the room! Mark your calendar so you can get connected with awesome Fargo-Moorhead founders and professionals!

The event will be a place for students who are:

- Working on a business idea
- Working through a current business
- Looking to find someone that shares their passion/career goals

Snacks will be provided. Open to all students and community members. We would love to see you there!

Please RSVP by visiting: <https://forms.gle/64HRX2MG4w1fqmzA7>

OPPORTUNITIES

CALL FOR PUBLIC ART PROJECTS DUE FRIDAY, MARCH 18TH AT 4:00PM

The Fargo Arts and Culture Commission (ACC) has opened a call for public art projects and invites community members to propose a project free and accessible to the community – visual or performance-based, permanent or temporary within the public realm.

The Fargo Arts and Culture Commission (ACC) has opened a call for public art projects and invites community members to propose a project free and accessible to the community – visual or performance-based, permanent or temporary within the public realm. The ACC encourages culture bearers and traditional artists, community members and even city departments to consider the invitation. As an optional take on the proposal, the ACC invites people to consider the Madison/Unicorn 2021 Core Neighborhood Plan in development of a project with a goal to integrate ACC's call for public art projects with other City of Fargo initiatives and priorities.

Closes: 4:00 PM Fri, Mar 18, 2022 Link: www.FargoND.GoV/CallForPublicArtProjects

Q&A Session: 10 AM to 12 PM, Feb 24, at the Downtown Library Community Room (101 4th Street N, Fargo)

Amounts: Grants of \$5,000-15,000 increments will be considered up to \$45,000 total

@ NDSU VIDEO PROJECT - WITH PRIZES! DUE FRIDAY, MARCH 4TH

The Office of Teaching and Learning seeks students (individuals or groups) to participate in this spring's @ NDSU video project! This spring the @ NDSU video project is open to students of any major. Selected proposals will create short workshop videos (10 minutes or less) demonstrating the practical application of a concept in their field of study for a high school student audience. Ideally, these videos will be used by teachers in high school classrooms to teach concepts to students, as well as demonstrate to those students what a visual artist or graphic designer might do as a part of their job.

This event was born out of the pandemic and a desire to be able to share student work with high school students. Our goal is to make the topics approachable for high school students and introduce them to a field of study they might not have otherwise known about or been interested in. Highlighting different areas of study allows these young adults to experience what those disciplines look like in postsecondary education and the real world.

First place will receive a \$100 Gift Card to The NDSU Bookstore, second place will receive a \$50 Gift Card to The NDSU Bookstore, and third place will receive a \$25 Gift Card to The NDSU Bookstore. Criteria for judging will include: engagement, creativity, applicability, teaching, and overall quality.

Video proposals are due no later than Friday, March 4, 2022, but can be sent in before then. The final videos will need to be submitted by Friday, March 11, 2022. We will be posting videos on the Office of Teaching and Learning YouTube page and will be sending the links out to high schools across the state in mid-March.

Sign up to create a video here: https://ndstate.col.qualtrics.com/jfe/form/SV_9Gq8pNVYb0fsuQC

If you have any questions, please contact either Amy Tichy (amy.tichy@ndsu.edu) or Holly DeVries (holly.devries@ndsu.edu).

OPPORTUNITIES

CALL FOR PROPOSALS: 2022 RAMSA FELLOWSHIP DUE WEDNESDAY, MARCH 30TH

On behalf of Robert A.M. Stern Architects and the RAMSA Fellowship Jury: We are pleased to announce the tenth annual RAMSA Fellowship, a \$10,000 prize awarded by Robert A.M. Stern Architects for travel and research. The fellowship seeks to promote investigations into the perpetuation of tradition through invention. Each year, the fellowship is given to an individual who has proven insight and interest in the profession and its future, as well as the ability to carry forth in-depth research.

We have expanded the list of eligible schools to include all NAAB-accredited schools in the United States. Students in the penultimate year of a graduate-level professional or post-professional degree program in architecture are eligible for the prize, and there is no limit to the number of students who may apply from each school.

Past recipients have traveled to Austria, Hungary, India, Indonesia, Italy, Japan, Kenya, Poland, Romania, Scotland, Slovakia, Slovenia, Ukraine, and various cities in the United States where they have studied a wide range of topics.

Submission information and all forms are available on our website at www.ramsa.com/fellowship. Complete submissions include a research proposal, a portfolio, and the application forms, which must be signed by a school dean or department chair to verify enrollment. Submissions are due on March 30, 2022 and the jury will announce the winner by April 21, 2022.

ARCHITECTURE JOB OPENING

RJTR in Atlanta is hiring! We are a very diverse firm looking for talented team members to learn and grow with us. We have a very healthy back log of work focused mainly on Multifamily and hospitality. That said, we have upcoming opportunities in healthcare, corporate, multi-use focused in the Southeast, and additional opportunities all across the country. Atlanta is a growing city and the opportunities are vast both professionally and personally (plus our weather isn't bad either. It was 70 on Saturday).

If there are any graduating seniors who might be interested, please let me know and I am happy to connect. Below I have provided links to the AIA website that includes a good description of open positions along with our linked in page. The linked in page has a good indication of our culture and some of our learning, networking, social and professional activities.

OPPORTUNITIES

ARCHITECT/INTERN ARCHITECT JOB OPENING

Chesmore | Buck Architecture is seeking an energetic Architect / Intern Architect to work in a collaborative studio environment. The candidate will be involved in all phases of project development. This is a small firm located in downtown Bellevue and undertakes commissions in new construction, remodel, and rehabilitation of residential, educational, institutional, religious, and scientific/technical projects. We are looking for a candidate passionate about the profession of architecture and that possesses the following:

Education:

- Professional degree in Architecture
- 1 to 5 years of experience working in an architectural firm.

Responsibilities:

- Ability to work independently and as a cooperative team member.
- Ability to develop design concepts into architectural drawings and models for presentations to clients.
- Ability to produce Construction Documents that are clear, concise, and technically proficient.
- Good communication skills: verbal and written.

Technical skills:

- Excellent design, drawing, and physical model building skills.
- Proficiency with AutoCAD, SketchUp, Microsoft Office, and Adobe products.
- Experience in Construction Document preparation.
- A general knowledge of building codes.

Intangibles:

- Ability to multitask in a team oriented small office.
- A "can do" attitude that is self-motivated and pro-active.

If you think you meet this criteria, please forward a resume and work samples to Rick Chesmore and Dave Buck at emails rick@chesmorebuck.com and dave@chesmorebuck.com.

SUMMER RESEARCH OPPORTUNITY FOR UNDERGRADUATES

MAY 31, 2022 TO AUGUST 5, 2022

"Calibrating the Built Environment Using Biosensing Equipment" - Ganapathy Mahalingam, professor, architecture. This summer research experience for undergraduates, involves developing a methodology to calibrate a building (the case study to be used is NDSU's Renaissance Hall) based on use of the building by its inhabitants. The methodology will map various journeys within the building, the steps taken, the calories burned, the floors climbed, pulse rates, and resting pulse rates, using a personal biosensor (the Fitbit device). The researcher will map all possible journeys within the building and record these parameters for each of the journeys by actually making the journeys. The data will then be processed and be used to create a calibration of the building based on its effectiveness to promote wellness through physical activity. The purpose of the research project is to develop this methodology for the calibration of a building to indicate how it supports wellness through physical activity. The goal is to develop a system that is similar to the energy efficiency rating of buildings and provides a wellness score for the building.

The stipend for the 10-week research program is a maximum of \$6000, working 40 hours a week. Plus \$500 for consumables related to the research. In addition, living accommodations in one of the residence halls and funds for travel to and from Fargo may be available. This is open to undergraduate students only and there are eligibility requirements. You need to apply for this opportunity and go through a selection process. If you have any questions about my project and you have an interest in applying for it, please contact Ganapathy Mahalingam via email.

OPPORTUNITIES

ARCHITECTURE JOB & INTERNSHIP OPPORTUNITY DUE MONDAY, FEBRUARY 28TH

Hoyt Architects is a small Jackson, Wyoming based firm, with multiple published designs, that focuses on creative solutions to building sustainably in the mountain landscape.

We are seeking creative, highly motivated individuals who desire to design within the beautiful environment that they live.

We offer the opportunity to be involved in all phases of diverse projects including high-end residential, mixed use, and affordable living.

We are a growing firm, specifically looking for Architects, AITs, and Intern Architects. We offer great pay, benefits, and a flexible office to enjoy Jackson and the surrounding area. Interested individuals can view some of our recent work at hoytarchitects.design.

I personally look forward to meeting the right person or persons. They may email me their resumes and portfolios. They may also call me directly at the numbers below.

EngTech

ARCHITECTS • ENGINEERS • FORENSICS
INTERNSHIP - BISMARCK, ND

EngTech performs educational, municipal, and commercial design throughout the state of North Dakota and the Upper Great Plains. We are a small, highly involved firm that is looking to fill a Summer and/or Full-Time Internship posting, starting in May of 2022.

An internship experience at EngTech will be guided directly under a Project Architect. The experience includes compiling data, performing design tasks, and assisting in the creation of schematic design development and contract documents. From this experience an intern will continually develop a thorough knowledge of design, communication, drafting, detailing, building materials, codes, and construction.

The EngTech team is invested in providing interns a variety of learning opportunities in all aspects of professional architecture including business development, project design, meetings, and construction administration. This is an opportunity to gain AXP credits across all experience areas.

REQUIREMENTS

1. Enrolled in Bachelor/Master of Architecture program from an accredited university.
2. Proficient in design software (Revit, Enscape, Adobe CS, etc.)
3. Willingness to make the required time commitment to meet job and company obligations.
4. Great listening skills with the ability to communicate an understanding of assignments and expectations.
5. Self-motivated disposition with a desire for career growth.
6. Results oriented and ability to work with minimal supervision.

JOB RESPONSIBILITIES

1. Assist with development and detailing in all phases of a project through construction documents.
2. Independently apply standards and procedures to architectural assignments.
3. Perform code research.
4. Assist in design conceptualization.
5. Assist in construction administration of projects.
6. Perform a variety of tasks as needed on a project.
7. Prepare 3D Renderings.

HOW TO APPLY:
Application Requirements:

- Cover Letter
- Resume
- Portfolio

Send applications to info@engtechnd.com, by Sunday 2/20/2022

For more information about EngTech or our internship opportunity, please contact, EngTech designer and 2021 ND SU architecture graduate, George Smith, gsmit@engtechnd.com or call/text 701-840-4754

OPPORTUNITIES
